### GREAT MEETINGS

To Be Held at the Christian Church.

A 'POSSUM SUPPER.

Foreign Missionaries and Dr. McLean to Speak.

Expectation is on tiptoe among the members of the Christian church concerning the Foreign Missionary Rally to be held on Friday and preparation of the most thorough sort is being made for it. Music of the best quality will be furnished. Mrs. H. H. Perkins, the choir of the First Presbyterian church and Miss Hallie Hale will sing special pieces. Invitations have been extended to all the local churches and a cordial invitation is hereby given to all the churches in the county to attend what As heretofore announced, Pres. A. McLean, Dr. E. J. Osgood, of China, and Rev. David Reach, of India, will speak in the meetings of the day. These are all men of spiritual might.

Three meetings will be held, at 10 a. m., 2 p. m. and 7 p. m. respectively. They will be held irrespective of rain, snow, cold or whatever other ordinary phases the weather may assume. It is also expected that the interest in them will not permit the attendance to be seriously affected by such circumstances. One of the deacons, a prominent Main street business man, has signified his purpose to close for the day that he may attend. Parents of the church are expected to send their children over ten years of age, as the educational value of the rally is immense.

The "possum" luncheon at the Hill House for President McLean, the missionaries and the local pastors is exciting interest, especially among the local pastors.

### NAVAL CADETSHIP

Given to Christian County Boy By Congressman Stanley.

Congressman A. O. Stanley has appointed Ralph Dority, of Pembroke, to be a cadet in the naval academy at Annapolis. Young Dority is the second son of Mr. Alex. O. Dority and is a very bright and studious youth of 18 years of age. He will take the place of Faulkner Goldthwaite, another Christian county boy, who graduated next spring.

LOST—Long black Ostrich plume on South Virginia St. Suitable reward. Willie Harrison.

### ADDITIONS NOW NUMBER 26.

Baptist Revival Continues With Greatly Increasing Interest.

TWO SERVICES TO-DAY.

Another Children's Meeting Is Planned As Special Feature Saturday.

Up to Tuesday night the Baptist revival had resulted in 26 additions to the church and many more conversions. Dr. Jenkins' sermon Tuesday night was on repentance and his appeal to sinners was unusually strong. There were half a dozen conversions and ten additions to the church following it. The congregations continue large and many find it necessary to occupy seats in the Sunday School rooms.

The meeting will continue to day without interruption, services being held morning and evening as usual. The meetings will continue throughout the week and Saturday both services will be merged into one, especially for children, at 3 o'clock. Dr. Jenkins says that while this meeting is for children under 16 years of age, the "older children" will be permitted to occupy the rear seats.

The improvements around the church have been completed and the new pavements are free from building material and obstructions. The new concrete pavements surround the church on three sides and there are rows of concrete hitching posts on two sides, made into the pavement. The improved appearance of the church is much commented upon.

Many christian people of other denominations are attending the services and all are invited and welcomed.

### I. C. OFFICIALS

Spent a Day in the City Looking Around.

Messrs. H. J. Scheuing, Supt. of this division of the I. C. Railway; Wm. Smith, Jr., Assistant Gen'l Freight Agent, and W. B. Ryan Traveling Freight Agent, spent Tuesday in the city looking into the general condition of things here.

Superintendent Scheuing let drop in the hearing of a representative of this paper that his company is going to spend a great deal of money on improvements here.

### OFF FOR EDDYVILLE.

Services Will Be Held In Chapel To-day.

Nearly a dozen ladies and gentlemen have arranged to hold religious services with the men behind the bars at the Evansville branch penitentiary to-day. The crowd will consist of representatives from nearly all the churches in the city. They will be entertained by Warden Hagerman and Assistant Warden Miller. These gentlemen always do their best toward visitors generally, but are particularly kind to the people who often leave their homes during the feasting and festivities of Christmas and at their own expense go to Eddyville to point the unfortunates there to a higher and better life. It is gratifying to know that the results of many years work are so great that prison officials often insist on such services being held among the convicts, as those who are influenced are more tractable and are more trusted than the others.

### DR. BULL

Will Leave Nashville and Go to Scranton, Pa.

Dr. Griffin W. Bull has resigned the pastorate of the Moore Memorial Presbyterian church at Nashville, and accepted a call to the First Presbyterian church at Scranton, Pa. The church is one of the most wealthiest and most influential of Scranton. The salary is \$4,000 and a magnificent pastor's home.

Dr. Bull came here last summer to conduct a meeting at the Ninth Street Presbyterian church. He was considered one of the interesting speakers ever in the city, but had to close the meeting on account of sickness in his family.

### HIS SECOND MAN.

Marion Allen Kills Ed. Hardwick In a Drunken Spree.

Marion Allen was arrested on a warrant issued by Esq. Whitson and lodged in jail by constable John Hanks Sunday night, charged with the wilful murder of Ed. Hardwick, says the Madisonville Hustler.

According to the most reliable report of the affair, Allen, Hardwick and others were in the grove near the town of White Plains engaged in drinking and card playing. The men had no falling out, but Allen tossed a single tree on the ground and dared Hardwick to pick it up. As Hardwick reached down for the single tree Allen fired, striking Hardwick in the shoulder and ranging downward, killing him almost instantly.

It therefore seems to have been the result of a drunken spree more than anything else. Hardwick was an inoffensive fellow, and his worst fault was the habit of drinking to excess.

It will be remembered that Allen killed a young man by the name of Hanks about a year ago, but was cleared on the plea of self-defense.

### K. P. Orphans Home.

Mr. L. H. Davis returned Tuesday from Lexington where he went as a trustee of the Widows and Orphans Home of the Knights of Pythias. The new home has been turned over to the Trustees free from debt worth \$30,000 and the fund has \$18,000 still on hand.

### Good Dinner Monday.

The Ladies of the Ninth Street Presbyterian Church will have a bazar and dinner Monday, Dec. 3.

### Bank at Nortonville.

A bank has been organized at Nortonville with \$15,000 capital stock. Burr Morton is president.

NATURE'S ESSENCE.

Extracted From Forest Plants.

"Nature's laws are perfect. If we obey  
them, but disease follows disobedience.  
Go straight to nature for the cure, to the  
forest; there are mysteries here that we  
can fathom for you. Take the bark of  
the blackberry tree, the root of man-  
nakin, ginseng root, quinine root, bloodroot  
and golden seal root, make a scientific  
non-alcoholic extract of them with just  
the right proportions and you have Dr.  
Pierce's Golden Medical Discovery."

It took Dr. Pierce, with the assistance  
of two learned chemists, eight years of  
hard work experimenting to make this  
vegetable extract and alternative of the  
greatest efficiency.

Just the sort of remedy you need to  
make rich red blood, and cure that lase-  
dude and feeling of nerve exhaustion.  
Dr. Pierce's Golden Medical Discovery  
bears the stamp of PUBLIC APPROVAL  
and has been largely in the past  
forty years than any other blood purifier  
and strengthener.

The refreshing  
breeze of this extract is like Nature's  
influence—the blood is purified and en-  
riched—the vital force of the body burns  
brighter and their increased activity con-  
sumes the rubbish which has been ac-  
cumulated in the system. Doctor R. V.  
Pierce, the founder of the Invaluable Food  
and Surgical Institute, Buffalo, N. Y., and

Dr. Pierce's Pleasant Pellets  
cure bad, foul stomach and  
constipation and so help to cure  
nearly every disease of man-  
kind. They regulate bowels and invigorate

## FACTS ARE STUBBORN.

IF HOPKINSVILLE PEOPLE ARE NOT CONVINCED BY LOCAL IT'S MORE THAN OTHER PEOPLE.

Facts are stubborn. Some may be disputed, None can be disputed. A fact is always hedged about the proof.

Has to stand the test of investigation. Or it drifts to the realm of doubt. Investigate closely the following: Intention of the author in convincing the results.

A Hopkinsville citizen speaks here.

Speaks from experience and conviction. Miss L. A. Hester, 212 East 14th Street, says: "To walk for any distance or to over-extend myself in any way, is the thing which in my back from which I was for a long time a continual sufferer, and if I caught cold it seemed to settle in the same region and made me miserable. When rising in the morning I felt stiff and sore and often found it difficult to dress myself. Another symptom of my complaint was a weakness of the kidneys which annoyed and distressed me beyond words. I doctored but found little or any relief until I tried Doan's Kidney Pills which had been strongly recommended to me and which I procured. They did me a vast amount of good. The pain in my back ceased, the secretions were regulated and my health was improved generally."

For sale for all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

## Banks Will Close.

The banks will close Thursday and all persons who will need change in transacting their business Thursday should get it to-morrow.

Instead of the great fire of 1882 the flood of 1906 will be the year for the present generation to fix some incident in local history.

## THE CASH BOY TALKS.

His Father's Idea of the Delights of Municipal Ownership.

"Say, boss," remarked our cash boy this morning, "my paw is red hot for miniciple ownership. I don't know what that is, but paw says everybody is going to own everything and divid up the profits. He was telling me about it last night."

"Ma asked him where the people would get the money to buy those things as they would cost millions of dollars."

"Paw said, 'Issue bonds.'"

"Then," said ma, "but how will you pay the bonds when they are due?"

"Issue more bonds," said paw.

"But how about the interest?" said ma. "Won't you have to tax the people for the bonds?"

"Why, no," said paw. "Pay the interest with bonds."

"I don't see how you could do that," said ma.

"You don't," eh? replied paw. "Now, when we went to housekeeping, didn't I pay for all our furniture by giving a note, and when it came due didn't I give the man another note? You won't know nothing about finance. You wait until the miniciple ownership gets in power, we will divide the profits among the people, and no one will have to work. We will all be Vanderbilts. Won't you be proud of your hubby when he becomes part owner of all public utilities? You see, ma'am, there are some things you don't know."

"And then paw looked wise. Ma stood and gazed at him for some time and then said:

"Yes, there are some things I don't know, and one of those things is this: If there is a man more fit for the miniciple system than you, I don't know him."

"Then I commenced to whistle 'Everybody Works but Daddy.' Say, boss, you see that lump on the back of my head? Paw has had that lump poked at him before, and I wasn't looking when his old shoe came flying my way?"—Yonkers Statesman.

## LONG LIVE THE BOSS!

Municipal Ownership Would Make His Position Impregnable.

Referring to the recent announcement that 25,000 persons are on the payroll of New York city, the Newark Advertiser declares that in the event of municipal ownership of street railways, electric light and gas plants, ferries and other public utilities the city employees would constitute a political army that would make a change of administration impossible.

It needs the fact that 25,000 city employees in Philadelphia kept Philadelphia in the hands of the corrupt Durham machine for years, and only a general strike uprising overthrew the grafters.

"If Durham had had control of the street railways and other public utilities Philadelphia through miniciple ownership," he observes, "the could have laughed at 'popular' uprisings. He would have been as absolute in his authority as the czar."

The point is well taken.

In other cities the political situation under public ownership would be as it would in Philadelphia and New York. Bosses may be overthrown and grafters turned out whenever the public will it at present. Public ownership of all public utilities would end this. It would bind the people hand and foot and deliver them into the hands of political grafters.—Long Branch Record.

## HOW CITIES LOSE MONEY.

Municipal Plants Pay No Taxes and Reduce Tax Receipts.

The subject of lost taxes is one that deserves our attention, that it usually receives from advocates of municipal ownership. There is scarcely a municipal plant in this country which mentions this item in its reports, although it is just as much an element in cost of production as coal and wages. The omission is readily overlooked, because it is a negative expense, deriving no direct payment, but only a loss of income to the city.

If you own a store for which you are receiving a good rental and dispossessing it in order to occupy it yourself, the rental value of the store becomes a charge against your profits, just as it is with a public service. And you are out of pocket unless your profits exceed the rent you formerly received. Similarly if a city buys out or otherwise disposes of a public service, it loses the rental value of the property, and the city is out of pocket unless the profits of its plant exceed the taxes lost.

M. O. in Chicago as Dead as Caesar. One of the most remarkable reversals of public opinion on record is that which has taken place in Chicago in the past year in the matter of municipal ownership and operation. The municipal ownership theory, which a little more than a year ago flourished here with so much vigor as to attract the attention of the entire civilized world, is now the deadest duck in the pond. Apparently nobody believes in it any longer. Certainly nobody ever talks any more about it.—Chicago Journal.

When Officials Are Efficient. When the administration of the department now in charge of our local public officials show better results in economy and efficiency it will be time, and not right then, to consider an enlargement of their responsibilities.

Edward W. Burlett.

# We Will Pay all the Bills!

If You Will Be Our Guest at the Jamestown Exposition.

Read Carefully Our Plan!

THE KENTUCKIAN will send to the Jamestown Exposition the four most popular young women in Christian County. The Kentuckian will pay every cent of expense, including railroad fare; Pullman fare; meals on train; hotel bills, street car fare; admission to grounds and amusement concessions; side trips to points in the vicinity of the Exposition grounds.

The contest is open to any young lady making her home in Christian county. For each year's subscription to the Kentuckian at \$2.00 the subscriber will be entitled to cast 40 votes.

Our contest begins Nov. 15th and will continue for 6 months; to May 15th.

In order that all subscribers to the Kentuckian may have an interest in this contest, all subscribers to our paper at the time of this announcement will be entitled to 20 votes each, which 20 votes may be placed to the credit of any one candidate—provided they are cast before January 1, 1907.

YOU choose the candidate. We don't. The minute a vote is cast for a young woman she becomes a candidate and her name is placed upon the published list, together with the total vote cast for her up to the time the list is published.

When a subscription is received at this office the subscriber is first credited with the amount of his subscription and the number of votes his subscription represents is credited to the candidate named by him and entered in a special book kept for the purpose.

On every FRIDAY, at noon each candidate will be credited with her new vote and her total vote-to-date and the result will be published in the next issue of the Kentuckian.

which is to be held near Norfolk, Va., in 1907 will be absolutely unique and will represent, together with the United States and foreign naval display in conjunction with it, more than \$300,000,000.00. A visit to this great international exposition will be a liberal education. It will open April 26th, 1907, and close November 30.

Ninety-six federal prisoners, convicted of various crimes during the United States, were received at the government prison in Atlanta, from Washington City, to-day.

A fine of \$12,000 was imposed on the American Sugar Refining Company by Judge Hough in the United States Circuit Court of New York for acceptance rebates from the New York Central Railroad Company.

Smarting under the criticisms of Rev. Dr. E. L. Powell, of Louisville, Gov. Beckham Tuesday gave out a statement that he did not want Dr. Powell to call upon him with the delegation of ministers who desired to confer with the Governor relative to another attempt to "put the lid on" in Louisville.

There are many acres of forest land in the South that can be made more profitable by being devoted to agriculture, but there are vast tracts that, if properly managed, will be more profitable if allowed to remain in forest. Trees are a slow crop, but the Bureau of Forestry has shown that, at the present and prospective prices of timber, an acre of forest, if intelligently managed, can be made as profitable as an acre of tilled land. The investigations of the Bureau of Forestry in the Agricultural Department are emphasizing the fact that the demand for lumber and forest products in the United States will soon be far in excess of the supply and that every acre of forest land now remaining uncut is certain to grow in value from year to year to year. The largest and most valuable timber tracts remaining are now in the Southern states.

### Thanksgiving Slices.

The banks and postoffice will be closed as tight as a clam today.

Leave part of your feast and send it to those who have none.

Only three weeks and three days after today until Christmas.

Everybody has cause for thanksgiving—it might have been worse than it is.

The quail and rabbits will suffer today because the store clerk got a day off.

Everybody will be thankful when the telephone lines are in operation and new street lights are installed.

About two-thirds of the students of South Kentucky College went home to take their turkey with their parents and friends.

The rural carriers have holiday today. All the machinery of the government takes a rest and works better afterwards.

"It is more blessed to give than to receive," said the One who never had a home of his own. Prove His words by trying them on and see if they don't fit.

The court house interior will be gloomy today, but if you want to pay taxes or get a marriage license you can probably be accommodated.

Don't let the collection be made at the Christian church this morning keep you away from the union services.

Two or three of the leading merchants have advertised that their stores will be closed and the grocers and others, after making their morning deliveries, will do the same.

If you have only a chicken today, be thankful. If you haven't that, remember there are thousands in the same fix and you ought to be thankful you are living—and that in the greatest country in all the world.

There will be a feast for the unfortunate at the asylum tomorrow. One hundred and sixty turkeys will come to gobble, a barrel of cranberries will be used, while other good things will make glad the hearts of the wards of the State.

## REV. SMITH TO REMAIN.

His Congregation Will Give Him Anything He Wants.

\$12,000 TO BE SPENT.

A Slight Tribute to the Worth of a Good Man.

Hopkinsville never had a more able ministry than it has to-day. The spiritual condition of the churches has never been nearer the ideal. Doubtless a larger percentage of the white population are members of churches than any other city of the same white population in the country.

This is, in great measure, due to the faithfulness and activity of the pastors, whose labors on the side of right and morality, and in leading men to God have been greatly blessed by him.

One of their number, Rev. H. D. Smith, of the Christian church, has been notably successful during his ministry of ten years here. Every department of work he has undertaken, from building up the S. S. to arousing unprecedented interest in home and foreign missions, has been pushed with unabated zeal.

The membership has increased to 700 or over. The church building is now too small for the congregation and almost every member realizes that he is a part of the great machinery of church work.

With everything in this condition, words cannot express the surprise that Mr. Smith created when he announced last Sunday that he was in search of a larger field. It was virtually submitting his resignation. Under certain conditions Dr. Smith said he might remain here.

The conditions have, as far as practicable, been met, and the man of God, who has given the ten best years of his life to the Master's work here is likely to remain.

Dr. Smith is to have a much larger church building. About \$12,000 are to be spent in extending the audience room and S. S. room out to the sidewalk line on Liberty street. This will admit of a new ascent to the audience room, which will be appreciated by the older and more feeble members of the congregation. This extension has been under consideration for some time, but it is now an assured thing and will be done just as soon as possible.

Dr. Smith has been called to a number of larger churches in larger cities with larger salaries, but he is no salary hunter—he wants the place where he can do the most good. His last call was to a church that offered him a salary nearly 50 per cent. greater than he is receiving now and an assistant pastor. This would be a tempting bait to some, but not to him. It is almost definitely settled that he is to remain in Hopkinsville with the people he loves so well, and who are devoted to him. One of his most liberal supporters and earnest assistants remarked yesterday: "We can't afford to give him up." When he goes the city will lose one of the best men who has ever made his home with us, and we—can't afford to give him up."

## Suiting the Hard to Suit Men!

The harder a man is to please with clothes, the harder he is to fit, the more fastidious he is as regards style and detail in general, the more anxious we are to have him come here for his Fall and Winter Suits. We want the hard-to-suit man to come here with all his Notions and Ideas. We believe we have an agreeable surprise in store for him.

The price range on our Suits runs something like this:

**\$5.00 to \$25.00!**

You'll note that these prices are about half what the custom tailor asks you, and he could not give you a better Suit if he tried, and tried, and tried.

## HOG CHOLERA

The Problem of a Cure is Now Solved.

The much dreaded disease, hog cholera, has lost its terror to those who are posted on modern methods of treating the disease. It is now a curable disease. Any practical farmer who will follow the instructions given by the manufacturers can stop the worst outbreak of disease that ever came and save almost every hog able to take the treatment and restore the herd to thrift in a few days time.

The Snoddy Remedy, manufactured by Dr. J. H. Snoddy Remedy Co., of Alton, Ill., has been used in this country and has proven itself a positive cure for the much dreaded disease. It is now on sale in Hopkinsville by the Planters Hardware Co., Inc., who will furnish any farmer or hog raiser one of Snoddy's books on hog cholera, free of charge, who will call at their store for it. Full directions for curing hog cholera is fully explained in this little booklet. Every farmer should have one. They are free, and it is hoped that the people will study up on this new method of treating the disease so they can feel safe from the disease when raising hogs and also so they will understand how to keep the cholera out of this country. The remedy is also on sale by E. W. Stegar & Dickson, down at Masonville, who will also furnish the farmer a copy of Snoddy's book on hog cholera, who will call there for it.

This remedy is the greatest worm remedy and thrift producer for hogs there is on the market. The extra gain they will make from its effect will return the farmer an average of \$5 in this extra gain for every dollar's worth of the medicine he uses properly and right. Hence the remedy is not an expense to a farmer but is a profitable investment and one that pays a greater profit than anything else on the farm the same amount of money can be invested in.

The remedy is certain in its action when properly used. It is impossible for a cholera germ or worm of any kind to live in a hog while that hog is under the influence of this remedy. The remedy will destroy every worm or germ of this kind and the hog will get well in a short while and be as thrifty as he ever was. There are many imitations of this remedy being put on the market. Let everyone be careful that they do not buy an imitation of the goods. The public will know the genuine Snoddy Remedy by its having Dr. Snoddy's picture on every label. If

a medicine for hog cholera is offered you that is claimed to be the Snoddy Remedy and does not have Dr. Snoddy's picture on the label, refuse it, because none are genuine without this picture. Dr. J. H. Snoddy is the original discoverer of the remedy and the Dr. J. H. Snoddy Remedy Co., uses his picture as a trademark. For further particulars call on the Planters Hardware Co., Incorporated, Hopkinsville, or E. W. Stegar & Dickson, at Masonville, Ky. The remedy is manufactured by Dr. J. H. Snoddy Remedy Co., Alton, Ill.

## "I RECKON RAN'S ALL RIGHT."

Judge Evans' Opinion In  
Case of Trigg County  
Negro at Owensboro.

### HAD BOUGHT LIQUOR.

Case Laughed Out of Court  
and Old Negro Goes His  
Way a Free Man.

An Owensboro dispatch says of the session of federal court Tuesday: Ran's all right.

Judge Evans said so, and what's more, he laughed heartily as he said it. A substantial old farmer of Trigg county, Mr. John Brown, said so very earnestly, and repeated it half a dozen times. The crowd in federal court so thoroughly agreed with the statement of the court and the witness that it applauded vigorously. Every time the witness reiterated his statement, the applause was repeated, and Judge Evans never said a word about fining anybody for being disorderly. In fact, Judge Evans laughed until his rather high forehead was the color of a June rose.

Ran is just a negro—one of the old fashioned sort—but he was charged with selling liquor without paying the government special tax. He denied it with all the vehemence of the old plantation negro and asserted, over the protest of his attorney, that if the witnesses against him were white men they would admit that they did not buy whisky from him. He admitted having taken some to them from another man.

Three substantial farmers were introduced as character witnesses. Two of them testified that Randle Jones' general reputation was good. The third wanted to particularize after having made the general statement that "Ran's all right." The district attorney tried to get an expression as to the people of the community, if they thought otherwise. "Well," said the witness, "some of his own folk talk about him, but they will talk about anybody—Ran's all right."

"You may stand down," said the district attorney in disgust. And then he started to make a speech to the jury. "We will have no argument in this case," announced Judge Evans. "I reckon Ran's all right. The court instructs the jury to find for the defendant."

**Deaths from Appendicitis** decrease in the same ratio that the use of Dr. King's New Life Pills increases. They save you from danger and bring quick and painless release from constipation and the ills growing out of it. Strength and vigor always follows their use. Guaranteed by R. C. ### BEVERLY BUDGET.

Numerous Notes From South  
Christian.

Mr. Chas. C. Major and bride have returned to their home near here. As is customary in this neighborhood, on such occasions, the friends of the groom charivariated them the first night. There were about twenty in the crowd and with farm bells, tin pans, tin tops, dinner bells, etc., they roused the neighborhood, as the bridal couple slept. Those who charivariated enjoyed it if the "victims" of the night did not.

Master Fenton Cayce, has been sick but is better now. It was feared that he would lose his hearing entirely.

Mr. Tom Major, who was very ill of pneumonia for several weeks, is now sitting up, but is very weak. It was the sixth time that he had had pneumonia.

We are glad to have good weather after such a down-pour of "chilled vapor."

If our newly acquired lakes would freeze over good, there would be fine sport for us skating.

The Beverly School had already gotten a three months' start before the rain, so it continued with good attendance.

Misses Erine and Lallie Giles, of near Herndon, who attended S. K. C., visited Miss Dixie Kimmerling during the rainy season.

Miss Annie Major visited for a few days at the home of Mr. R. T. Word, of Beverly.

There was preaching at Locust Grove last Saturday afternoon and again Sunday morning.

We are sorry that Liberty Church has no preacher. Also hope that Oliver will soon get them a pastor.

Mr. Edgar Radford and family attended the marriage of his half brother, George Radford, of Howell.

Miss Nannie Major, one of the attendants at the Major-Quarles marriage, accompanied them to their home and has been visiting for several days at the home of Mr. R. T. Word.

All of the young folks watch out for the new game that is to be indulged in here Xmas, and get in practice, for you might be the lucky one.

Are you guessing who it is that we are to lose from our neighborhood in December?

# THE OLDEST MAN IN AMERICA

Escaped the Terrors of  
Many Winters By  
Using Pe-ru-na.

Mr. Isaac Brock, 117 Years Old Last Birthday.

ISAAC BROCK, a citizen of McLennan county, Texas, has lived for 117 years. For many years he resided at Boque Falls, eighteen miles west of Waco, but now lives with his son-in-law at Valley Mills, Texas. Some time ago, by request, Uncle Isaac came to Waco and sat for his picture, holding in his hand a stick out from the grave of General Andrew Jackson. Mr. Brock is a dignified old gentleman, showing few signs of decrepitude. His family Bible is still preserved, and it shows that the date of his birth was written 117 years ago.

#### Born before the United States was formed.

Saw 12 Presidents elected. Pe-ru-na has protected him from all sudden changes.

Veteran of four wars.

Shed a horse when 99 years old.

Always conquered the grip with Pe-ru-na.

Witness in a land suit at the age of 110 years.

Believes Pe-ru-na the greatest remedy of the age for catarrhal troubles.

IN speaking of his good health and extreme old age, Mr. Brock says: "After a man has lived in the world as long as I have, he ought to have found out a great many things by experience. I think I have done so."

"One of the things I have found out to my entire satisfaction is the proper thing for ailments that are due directly to the effects of the climate. For 117 years I have withstood the changeable climate of the United States."

"I have always been a very healthy man, but, of course, subject to the affections which are due to sudden changes in the climate and temperature. During my long life I have known a great many remedies for coughs, colds and diarrhoea."

"As for Hartman's remedy, Pe-ru-na, I have found it to be the best, if not the only, reliable remedy for these affections. It has been my standby for many years, and I attribute my good health and extreme old age to this remedy."

"It exactly meets all my requirements. It protects me from the evil effects of sudden changes; it keeps me in good appetite; it gives me strength; it keeps my blood in good circulation. I have come to rely upon it almost entirely for the many little things for which I need medicine."

"When epidemics of the grippe first began to make their appearance in this country I was a sufferer from this disease."

"I had several long sleazes with the grip. At first I did not know that Pe-ru-na was a remedy for this disease. When I heard that the grippe was epidemic catarrh, I tried Pe-ru-na for the grippe and found it to be just the thing."

In a later letter, Mr. Brock writes: "I am well and feeling as well as I have for years. The only thing that bothers me is my sight. If I could see better I could walk all over the farm, and it would do me good. I would not be without Pe-ru-na."

Yours truly,

Isaac Brock.

When old age comes, it brings with it a natural infirmity. Systemic catarrh is almost universal in old people. This explains why Pe-ru-na has become so indispensable to many old people.

Mr. W. H. Olvey has moved what goods he has been able to recover from the wrecked drug store of Mr. Martin, into one of the store rooms in the Phoenix block, on Ninth street.

The Union Thanksgiving Service will be held tomorrow at 10:30 a. m. at the Ninth Street Christian church. Rev. E. H. Bull, pastor of the First

Presbyterian Church, will preach. All the choirs of the town are expected to unite in the song service. It is hoped by the pastors that the house may be crowded with those who wish to join in thanksgiving to God for the services and abounding blessings of a singularly prosperous year. An offerings will be received for the poor.

# A MENACE TO CITIES

Professor Fessenden Sounds a Note of Warning.

Cities Not Adapted to Operate Business Enterprises—Loss of Capital Through New Developments—The Danger a Real One.

It is becoming more and more generally recognized that undertakings founded on the great public needs of the highly organized society of modern times should be controlled by society. Whether, having the power, it is advisable that municipalities should actually engage in such undertakings or whether they should merely maintain their control, as it has been aptly put, through their powers as a landlord, is a matter which will be determined by the municipalities from political, social and economic as well as engineering considerations.

Considering the question from its engineering side alone, it is found that from the very essential nature of the matter only a certain class of engineering undertakings can be efficiently and properly operated by states or municipalities. It is very important that this limitation should be recognized, as where the limitation has been overstepped it has resulted in heavy financial losses to the governing bodies immediately concerned, it has seriously checked development in desirable lines, and these results have in consequence afforded a strong argument to those opposed to municipal operation of public utilities.

It is true that under state or municipal operation some minor and sporadic developments may be expected, but nothing of a general or important character. Important developments generally come only from the hands of individuals or bodies responsible only to themselves and provided with the incentive of a large profit. The elimination of self responsibility and incentive would inevitably produce a condition in industrial and scientific development analogous to the dark ages.

It is to be noted that this conclusion is derived from engineering considerations alone and does not include any consideration of the social, economic or economic side. There may, it is conceivable, be historical, social and economic considerations which would offset this limitation. Considerations never from the engineering standpoint alone there can be no question but that the field of state and municipal operation should be limited to undertakings in which there is no immediate prospect of, or need for, improved methods, which is always associated with the ownership of industrial undertakings is that the capital investment may be lost through the development of new and cheaper methods or processes. The extent to which industrial machinery of certain types is rendered obsolete by new improvements is not always realized. The electric power plant is a case in point. The electric power plant in which the entire electrical equipment of the power house was thrown out and replaced with improved machinery four times within a period of ten years. The Chesapeake company is reported, correctly, it is believed, have scrapped on one occasion more than \$1,000,000 worth of new machinery which had never been used.

This is already becoming an annual matter for many municipalities which have engaged in undertakings lying outside of the engineering limits defined above. Many of these municipalities installed plants for the production of electric light at a time when in the advent of important improvements in generating and distributing electric power and these municipalities are now faced with most unpalatable results. With most municipalities made to proper allowance for depreciation the capital invested has been practically lost and in addition the cost of electric light to the consumers is made higher than it is in other places.

With larger and more economical types of machinery the electric light and power industry is being revolutionized. The municipalities which have engaged in undertakings which have caused manufacturers to turn away to other towns, and this again has still further increased the burden upon those remaining. There are, it is fairly indicated that a considerable number of these municipalities which have engaged in improper undertakings are entering upon a period of financial difficulty. —R. A. Fessenden.

**As a Socialist Says It.**  
Every "advanced" authority on Socially economic conditions in the United States has been and is an avowed economic evolutionist. They all without exception recognize that public ownership under capitalism is a step before the full Socialist programme can meet with realization.

While the Socialist party shall succeed to power in municipalities, state or nation it will fall heir to the holdings of its capitalist predecessors. Every dollar's worth of property that we can wrest from private capitalism through public ownership will fall into the hands of the Socialist party without a struggle upon succession to power. —International Socialist Review.

**What Government Is For.**  
It is the appropriate function of the government to enforce the individual and to see that the game of business is fairly played, that the cards are held before the subgame that generally is played in private deals is not the appropriate function of the government to state the game plan. —F. M. Shaw.

## THE CHILDREN ENJOY

Life out of doors and out of the games which they play and the enjoyment which they receive and the efforts which they make, comes the greater part of that healthful development which is so essential to their happiness when grown. When a laxative is needed the remedy which is given to them to cleanse and sweeten and strengthen the internal organs on which it acts, should be such as physicians would sanction, because its component parts are known to be wholesome and the remedy itself free from every objectionable quality. The one remedy which physicians and parents, well-informed, approve and recommend and which the little ones enjoy, because of its pleasant flavor, its gentle action and its beneficial effects, is—Syrup of Figs—and for the same reason it is the only laxative which should be used by fathers and mothers.

Syrup of Figs is the only remedy which acts gently, pleasantly and naturally without griping, irritating, or nauseating and which cleanses the system effectually without producing that constipated habit which results from the use of the old-time cathartics and modern imitations, and against which the children should be so carefully guarded. If you would have them grow to manhood and womanhood, strong, healthy and happy, do not give them medicines, when medicines are not needed, and when nature needs assistance in the way of a laxative, give them only the simple, pleasant and gentle—Syrup of Figs.

Its quality is due not only to the excellence of the combination of the laxative principles of plants with pleasant, aromatic syrups and juices, but also to our original method of manufacture and as you value the health of the little ones, do not accept any of the substitutes which unscrupulous dealers sometimes offer to increase their profits. Please to remember the full name of the Company—CALIFORNIA FIG SYRUP CO.—is printed on the front of every package. In order to get its beneficial effects it is always necessary to buy the genuine only. For sale by all reliable druggists.

**Comparative.**  
A prairie dog sat on his circling mound  
Far out on the arid plain;  
The asphynx blew in from the sun-baked hills  
The roar of a speeding train.  
The prairie dog pricked up his tiny ears,  
He held up his tiny nose  
And stiffened his back to a plumb-like poise  
According to village laws!

The limited came with a deafening crash:  
It cut through the air like a knife—  
A maid from New York in the Pullman  
drawn:  
"Oh dear, such a barren life!"  
But the prairie dog there on his mound  
of gently.  
"I wonder," he mused in his dogged mind,  
"What makes them rush on that way?"

"I'd rather be here where the cactus  
blooms  
And life is a care-free song.  
Than ride on a train with its murky air,  
Its dust and its loud din—"  
The prairie dog sniffed at the engine's  
nose  
And turned up his perky nose:  
Then into his hole in the ground he dove  
Out there where the race horse grows.

The maid from the east heaved a languid sigh—  
"This desert is fierce," she said,  
"Mud houses, coyotes and the scrub mesquite."  
She broke with their slimy bed:  
The girl from New York and the prairie  
dog  
Philosophers both were they:  
God made for the dog and the maid  
a place  
To live in a fitting way.

The prairie dog snail and the maiden fair  
Should each to their manner live.  
But both should remember the axiom  
That joys are comparative!  
The maid on the plains and the dog en  
route  
Would die of a broken heart—  
God never meant girls for the desert land  
Nor dogs for a Pullman smart!

**By the Way.**  
There is character in the sex men  
wear, says an exchange. The black  
stocking denotes wealth and dignity;  
the red, a leaning to profligate ways;  
the pale blue, a vapidity and mush-  
room desire to be in the swim. "What  
about the country editor who, accord-  
ing to tradition, wears no socks at all?"

Now is the time to pay your next  
summer's suit. Save money by being  
foresighted.  
The Gaas-Nelson fight was certainly  
a color in black and white. An artist  
descried, as it were, the silken gloves.

Editors with railroad transportation  
will please hurry up and ride it out  
before January 1. After that the walk-  
ing will be good.  
Did you ever stop to think what a  
fast age this is? Everybody is run-  
ning. The politician is running for  
office, the railroader is running to cut  
down time, the sweet girl graduate is  
running for a job in the millinery  
store, the clerk is running neck and  
neck with the town telegrapher for the  
town belle's hand, captains of industry  
are running great businesses, criminals  
are running from the law, magazines  
are running for subscriptions, subor-  
nities are running for their trains and  
Uncle By is running for President on  
the Christmas Present ticket. Come  
on everybody, breathe through the  
nose and keep going!

According to a daily newspaper, land  
is now being made from pigweed. The  
old way was to run the pigweed  
through the hog, but some wise gentle-  
men have made a machine that works  
like a hog, so to speak, and refines the  
lard without the help of the aforesaid  
porker. Please pass the pie, the crust  
of which is made from pigweed lard.

A Michigan railroad has ordered  
that no drunken man be allowed to  
board the train. The rule is a good  
one. The average peanut vendor who  
sells apples and novels on board is  
sufficient nuisance for any railway  
coach.

During the winter it is to be hoped  
that the north will not eat the holes  
in those pretty packed-away peek-a-  
boo waists. And especially is it hoped  
that if they do they will not eat them  
any larger than they are at present.

A wife can forgive her husband for  
splitting infinitives if he will only split  
the wood.

Loving one's self never ends in a  
breach-of-promise suit, anyhow.

All the world is a stage—and the  
rate commission is feeling to it that all  
editors walk.  
This is a wise old saying, "If you  
want to win a girl begin by making  
her hate you." If she hates you, she  
then loves you, you've got her. If she  
hates you and continues along the  
same line, she won't marry you—and  
you will continue to be your own boss.  
It's a great rule. You win coming and  
going.

Some men who never have any other  
opportunity to be heroes, marry young.

Now that the long winter evenings  
are coming on, thank God for the de-  
cadence of the game of "PIL."

Out in the care-free country about  
now they are killing hogs for the win-  
ter's meat. Will you have a piece of  
the tenderloin?

who do not wish to prize, the loose floor is certainly the attractive place, as here you get all the competition possible, as all of the buying interests are represented at these sales. There is no "Doeking or Reclamation" but your tobacco is accepted in the order and condition in which you deliver it on the market. You can put your tobacco on your wagon, bring it to the loose floor, sell it and get your money at once. You will not have to wait and pay interest on your own money, nor will you have losses in weight, nor will you have to pay any great big warehouse charges.

You can sell as much or just as little as you may desire.

We will have sales twice a week now and when tobacco comes in freely we expect to have sales every day. If more convenient you can "hand pack" your tobacco in hogsheds and we will allow you pay for the empty hogshed. In this way you will have complete control of your tobacco until it is sold and you receive your money. If you are not satisfied with the price offered you on the loose floor we will prize your tobacco and sell it for you and we will not charge you for offering it on the floor and will only charge you 40 cents per 100 pounds for pricing. If you have a cropper and want to get your crop off early you cannot do better than to put it on the loose floor, and especially is this to the benefit of the man who is to change his home Christmas.

It enables him to get his crop off of hand and will save a lot of trouble and expense. You can tie your tobacco in LARGE BUNDLES if you want to and you will receive full value for it as all the strip men will be on the loose floor. You can readily see the paramount advantage of selling in this way.

We strip tobacco now at 25 cents per 100 pounds, and prize at 40 cents per 100 pounds.

We solicit tobacco for the loose floor and also tobacco prized in hogsheds as we expect to have auction sales to the highest bidder. We are prepared to handle your tobacco in the most profitable manner for you and sell it in any way that suits you.

We are deeply grateful for all the patronage that we have received at your hands and hope by faithful attention to business to merit and receive a continuance of same.

Very truly yours,
